PAID SOCIAL ON FACEBOOK

Putting paid support behind your posts not only allows you to reach people who don't follow you (i.e. potential customers), it also allows you to reach *all* of your followers. Organic reach, the percentage of your audience that will see each post, has severely declined. This means that even a small amount (\$25) of paid investment can go a long way.

If you're interested in paid social, we recommend boosting—quickly putting money behind an existing post.

TO BOOST YOUR POSTS, FOLLOW THE INSTRUCTIONS BELOW:

ON DESKTOP

1. Navigate to your company page on Facebook.
2. Find the post that you'd like to put money behind and press **Boost Post**.
3. Select an **Objective**. We'd recommend **Link clicks** if you have a specific web page you'd like to drive traffic to, otherwise select **Post engagements**.
4. We'd recommend adding an optional **Post Button**. **Shop Now**, **Learn More**, **Book Now**, **Get Directions**, or **Send Message** are good options.
5. Select your target **Audience**. If you only want to target your fans, select **People who like your page**. We'd recommend either selecting **People who like your page and their friends**, or **People in your local area**. You can also build a custom audience (choosing demographic, geographic location, and interests) by selecting **Create new audience** in the bottom right corner of this section.
6. Choose your ad **Duration** and **Budget**.
7. Select the ad account that you'd like to use for this. Note: you'll either need to use your personal ad account, or an ad account associated with your business page. The option you select needs to have a payment method associated with it.
8. Press **Boost**.
